

CMS 50-P BAG CARTONING MACHINE

CMS 50-P Bag Cartonning Machine is for putting the bags inside big size carton boxes which is prepared by the machine. Thanks to servomotor technology bag and box are placed precisely on positions.

CMS 50-P

fully automatic

bag cartonning machines

CMS 50-P

GENERAL SPECIFICATIONS

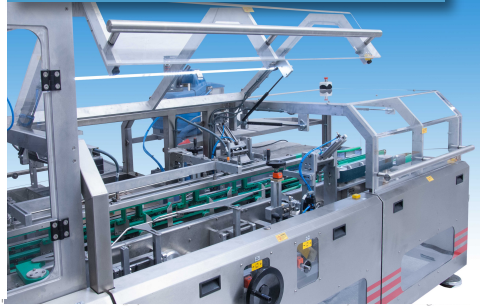

Stainless Steel Base
Servomotor Controlled IWIS Closed Box Chain System
Servomotor Driven Box Erecting System

Very Easy Format Changeover with Wheel System
Servomotor Driven Bag Pusher System
Easy Openable & Visible Base System

automatic box feeder

easy reachable

TECHNICAL SPECIFICATIONS

Up to 35 box / min capacity
250 X 350 X 110 mm max box dimensions
150 X 250 X 50 mm min box dimensions
Schneider PLC System
12" Colorfull Screen
Glue Spraying machine
Stainless Steel Base

12kW, 3 phases, 380 V, 50 Hz Electricity Connection
Festo Double Vacuum Venturi System
Scheider Servo Motors with Planet Gear Boxes
PILZ Sefty System
IWIS Chain
6 bar 350NI/min Pressurized Air Connection
1550 X 2100 X 4800 mm dimensions
